Caroline,

As mentioned on yesterday's update call, we have identified three comments that we would like to discuss with you further.

- Timing and framing of RAOs relative to draft risk assessments (General Comment #1 and Specific Comments 3, 6, 7, 8, and 11)
- Relationship between CWA and CERCLA, including consideration of CERCLA - regulated hazardous substances, pollutants or contaminants being discharged from CSOs (General Comments 4, and 5 and Specific Comments 23, 24)
- Sustainability evaluation (Specific Comment 25)

Are you and your team available for a call on Tuesday 5/23 from 11am – 1pm ET? Please let me know and I can send around an invite. If not, please provide days/times that work for you. Thanks!

Jim

If you need to discuss these comments before sending the revised documents, please let us know so we can schedule a call to discuss these comments.

Please contact me if you have any questions.

thanks
